## INDORSES THE FAIR.

Chanimity of Sentiment in Favor of Louisiana Purchase Exposition Surprises Many.

SUGGESTIONS FOR EXHIBITS.

From Kansas City Comes an Offer to Give an International Firemen's Tourney-Tray eling Men's Work.

Since the appointment by the Speaker of special committee to consider all legislaon affecting the Loubdana Purchase Cen cantal, there has been a marked increase be at enthusiasm, and offers of belp of kinds have come in. The large business ours have united in bringing the matter the attention of their correspondents and business connections throughout the miry. One targe manufacturing estabshment has addressed communications to (so establishments throughout the country, alling their attention briefly to the magniwie of the Pair project, and asking them a use their influence to make it a success everal other firms have taken similar tion, though the exact number is, of inter, hat known. The unanimity of senment in favor of the Pair through the outry is a surprise even to the most anguine promoters of the centerntal move ent and it becomes more and more ob one that when the special committee of ougress reports back the bill, it will be about by both bouses very promptly. As telegraphic disputches from Washing have pointed out, there are no material offerences between the original bill, as prepared by the Legislation Committee, of which P. W. Lehmann is chairman, and the revised full introduced a few days ago. Both measures call for an outright appro-priation of \$100,000, but in the revised measc. instead of the sum being appropriated imediately, the amount is guaranteed by ing that the city of St. Louis has raised 5,000,00 by popular subscription and has

furnished a similar sum by the sale of numerical bords. That this change is 'm-material so far as the enterprise is con-cerned, may be gathered from the fact that when the Fair was first seriously pro-posed, there was some discussion as to what would be done if less than \$12,000,000 what would be done if lers than \$15,09,09 were secured from all sources. There were suggestions that a smaller celebration might be held, but the overwhelming sense of the baril committees was against the abridgement of the original plan. The watchwors, "A Fifteen Million-Dollar Fair or Nothing," was anantmously adopted, and it will be concludered that the chairmen of the committees in the committees in the committees that the chairmen of the committees that the chairmen of the committees. eir various speeches, have emphasized this point. as the local subscription is con-he total can be easily raised as dicial announcement is made that has pulsed Congress was by group chairmen in the last few eks has been made under exceptional halities, so many who were called upon outsing on withholdling their decisions as the amount of their subscriptions until mores had taken action. Notwithstand-t this fact, the effort has realized \$180.00.

The group chairmen have also obtained 3d increases in subscriptions, although this was not a new leature of their work. The percentage of increase averages 7. It is needless to point out that an average percentage of increase very much lower than this would more than make up the \$5.99,000. The number of local subscriptions is so large that, with the impetus of recognition, the hold proposition will certainly be carried, the more so as no opposition of any kind has developed or is anticipated. Subscribers outside the city are also keeping careful watch on the movement, and com-

testion.
The next active work in connection with the preparations will, of contract, be the runs by the special committee. There is tew mays delay, awing to the absence of chairman from Washington, but and interfered with the pushing waid of preliminaties, and as soon as the bearing is announced, the local committees will be ready to present an unanswerable case for a prompt and favorable report on the measure.

#### THREE FIREMEN KILLED.

Factory Building on Forty-Fourth Street, New York, Burned.

New York, March 24.-Through the breakng down of the first floor in the factory building at 213 and 215 East Forty-fourth street, which was totally destroyed by fire to-day, three fleemen were killed and two trijured. The men were precipitated into the basement in which was about six feet

of water and pumed under the a supposed they were drowned. The dead: William J Smith, Peter F. Howett, For span John J. Grady.

Fireman Kuchs, Captain William Clark.
Captain William Clark.
The negitient which caused the death of the men occurred two hours after the fire had been put out. The men, with about ifteen others, were engaged in washing dawn the walls on the first floor, on which were stored tous of machinery, fin, heavy timbers and pix lead. The great weight on the fleor made it give way and the men went down into the basement, in which there was about six feet of water.

The police estimate the loss at \$50,000.

#### RLEW OPEN THE SAFE.

State Bank of Hardy, Neb., Robbed of \$4,000.

Hardy, Neb., March 24.-The State Bank of this place was visited by burglars about 2 o'cieck this morning. They blew open the safe with dynamite and secured \$1,000. No trace of the robbers has been secured

REPUBLIC SPECIAL.

Odesse, Mo. March 21.—Willis Clay, colored, aged 15, has been arrested here, charged with arson. He attempted to fire the dwilling of Lee Heeming, a prominent lumber dealer. He was suspected and finally content that will also speak. After a music programme there will be a general discussion on the importance of the primarics.

# CURE MEN ONLY

\*\*\*\*\*\*\*\*\*\*\*\*\* Do Not Scatter My Faculties.

Center Them On My Specialty.

\*\*\*\*\*\*\*\*\*\*\*\*\*\*

#### W. A. COOK, M. D.

Instead of scattering my forces over the entire field of medicine and surgery, as most doctors do, I concentrate them all on a single line of diseases, which I have long studied and theroughly mastered. I, therefore, treat only what I am absolutely certain that I can positively cure to stay cured. I challenge the medical profession for a case of VARICOCELE, STRICTURE, CONTAGIOUS BLOOD POISON, NERVO-SEXUAL DEBILITY or allied troubles that will not readily yield to my special treatment. If you have any of these maladies come to my office and I will explain to you my method of curing them. You are particularly invited if you have treated elsewhere without success. I will explain to you why you have not been cured, and demonstrate to your entire satisfaction why I can cure you safely, quickly and permanently. I will give you free of charge a thorough personal examination, together with an honest and scientific opinion of your case, and if you then decide to take my cure I will not ask you more than you will be willing to pay for the benefits conferred. I will do by you as I would want you to do by me if our cases were reversed. Certainty of cure is what you want. I can and will cite you, by permission, to hundreds of men whom I have recently cured and made happy. Among them are some of the most prominent and influential citizens of St. Louis, who will cheerfully vouch for my ability, professional and otherwise. My specialty is more fully commented upon below, and is well worth the careful persual of all in need of medical attention.

#### Varicocele

Whatever may be the cause of Varicoccle, its injurious effects are too well known for extended comment. Suffice to say that it depresses the mind, weakens the hole, racks the pervous system and dimmetry leads to a complete loss of sexnot power. If you are a victim of Varicoccle come to my office and let me explain to you my process of treating it. You will then not wonder why I have positively overed more than fee cases of this dire disease during the past 12 months. Under my treatment the patient improves from the very beginning. All pain instantly ceases. Soreness and swelling quickly subside. The pools of stannant blood are forced from the dilated veins, which rapidly assume their normal size, strength and soundness. All indications of disease and weekness vanish completely, and in their stead come the pride, the power and the pleasures of perfect health and restored manhood.

#### Stricture

It matters not how long you have suffered from Stricture, nor how many different doctors have disappointed you, I will cure you just as certainly as you come to me for treatment. I will not do it by cutting or dilating. My treatment is new, entirely original with me, and perfectly painless. It completely dissolves the Stricture, and permanently removes every obstruction from the urinary passage. It stops every unnatural discharge, allays all inflammation, reduces the prostate gland when initiated or congested, rivances and heals the bladder and kidneys when irritated or congested, invigorates the sexual organs, and restores health and soundness to every part of the body affected by the disease.

#### Contagious Blood Poison

On account of its frightful hidesusness, is commonly called the kinc of all venereal diseases. It may be either hereditary or contracted. Once the system is tainted with it, the disease may manifest itself in the form of scrofula, eczema, rheumatic pains, stiff or swellen joints, cruptions or copper-colored spots on face or body, little nices in the mouth or on the tongue, more throat, swellen tonsile, falling out of the hair or cycbrows, and finally a leprous-like decay of the ficeh and bones. If you have any of these or similar symptoms you are invited to consult me immediately. If I find your fears unfounded I will quickly unburden your mind. But if your constitution is infected with syphilitic virus I will frankly say so, and tell you how to get rid of it. My special treatment for Contagious Blood Poison is practically the result of my life work, and is indersed by the best physicians of American and Europe. It contains no dangerous drugs or injurious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of impurity. Soon every sign and symptom of Contagious Blood Poison disappear completely and forever. The blood, the tissue, the flesh, the bones and the whole system are cleaneed, purified and restored to perfect health, and the patient prepared anew for the duties and pleasures of Mrs.

#### Nervo-Sexual Debility

Men. many of you are new reaping the result of your former folly. Your manhood is failing, and will soon be lost unless you do something for yourself. There is no time to lose, Impotency, like all sexual diseases, is never on the standstill. With it you can make no compromise. Either you must master it or it will master you, and fill your whole future with misery and indescribable wee. I have treated so many cases of this kind that I am as familiar with them as you are with the very daylight. Once cured by me, you will never again be bothered with emissions, drains, prematureness, small or weak organs, nervousness, failing memory, loss of ambition or other symptoms which rob you of your manhood and absolutely unfit you for study, business, pleasure or marriage. My treatment for weak men will correct all these evils and restore you to what nature intended-a hale, healthy, happy man, with physical, mental and sexual powers complete.

#### Associate Diseases

in curing a disease of any kind I never fail to remove all reflex complications. If the case is Varicoccie the weakness caused by it disappears. If it is Stricture and has developed into Prostatic, Bladder or Kidney affections, the injured organs are all restored to a perfectly healthful condition. If it is Contagious Blood Poison, any and all Skin, Blood and bone diseases arising from the taint are entirely and permanently eliminated from the system. If it is impotency, the many distressing symptoms following in its train and indicating a premature decline of physical, mental and sexual power are totally removed and rapidly replaced by the youthful energy of robust manhood. Hence all resulting ills and reflex complications, which may be properly termed associate diseases, and which, in fact, are often more serious than the original ailment that gives rise to them-all, I say, disappear completely and forever with the cure of the main maindy.

#### Correspondence

Most cases can be treated successfully at home. One personal visit is preferred, but if it is impossible or inconvenient for you to call at my office write me a full and unreserved history of your case, plainly stating your symptoms. Physicians having stubborn cases to treat are cordially invited to consult with me, I charge nothing for private counsel, and give to each patient a legal contract in writing, backed by abundant capital, to hold for my promise. Address all communications

# CATARRI. FORERUNNER OF CONSUMPTION.

Few realize what a deep-scated, obstinate disease Catarrh is, regarding it as a simple inflammation of the nose and throat, little or no attention is given it. But, however insignificant it may seem at first, it is serious and far-reaching in its results.

The foul secretions entering the circulation poison the entire system. The stomach, kidneys-in fact all the organs - feel the effect of this catarrhal poison, and when the lungs are reached its progress is rapid and destructive, and finally ends in consumption.

It frequently happens that the senses of hearing and smell are in part or entirely lost, the soft bones of the nose eaten into and destroyed, causing intense suffering and greatly disfiguring the face. While sprays, washes and salves may give temporary relief, no permanent benefit can be expected from such treatment.

and far beyond the reach of mere local remedies. Those who rely upon them for a cure lose valuable time, meet with disappointment and allow the disease to take firmer hold. Only a real blood remedy can reach this troublesome and dangerous disease. S. S. S. cures Catarrh because it first cleanses and builds up the blood, purifies it, makes it rich and healthy, stimulates and

puts new life into the sluggish worn-out organs, and thus relieves the system of all poisonous accumulations.

Mrs. Josephine Polhill, of Due West. S. C., writes: "I had Caturrh, which became so deep-seated that I was entirely deaf in one ear, and all inside of my nose, including part of the bone, sloughed off. When the disease had gone this far the physician gave me up as incurable. I determined to try S. S. S. as a last resort, and began to improve at once. It seemed to get at the seat of the disease, and after a few weeks' treatment I was entirely cured, and for more than seven years have had no sign of the disease."

any information or advice wanted. We make no charge for this.

S. S. S. is made of roots, herbs and barks of wonderf il tonical and purifying properties. It is the only vegetable blood purifier known, and a certain and safe cure for all blood troubles. Send for our book on Blood and Skin Diseases, and at the same time write our physicians about your case. They will cheerfully give you SWIFT SPECIFIC CO., ATLANTA, GA.
